3.9 If a Margin Call notification is sent to the Client Terminal, the Client will not be able to open any new positions, except where permitted by the Company, hedging position(s) to reduce margin. 4. Trailing Stop, Expert Advisor and Stop Loss Orders

The Company reserves the right to accept or reject at its own discretion the use of additional functions of the Client Trading Terminal and in case these additional functions affect the reliability and/or smooth operation and/or the stability of the Company's Trading Platform to immediately terminate by way of written notice the relationship with the Client and/or take any actions deemed appropriate.

4.2 The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

6. Custom Indicators

6.1. The Client agrees that Custom Indicators are created based on user-provided code and are provided solely for informational and educational purposes. Indicators do not constitute investment advice, investment research, a recommendation, or an offer to buy or sell any financial instrument. The Company provides an execution-only service and does not assess the suitability or appropriateness of any Indicator, strategy, or trading activity.

6.2. The Client acknowledges and agrees that Indicators constitute user-generated content and that the Client is solely responsible for: (i) the design, code, logic, specifications, functionality, outputs, signals, calculations, interpretations, and operation of any Indicator; (ii) independently testing, validating, monitoring, and vetting all Indicators in a safe, non-production environment prior to live use; and (iii) all trading decisions, strategies, executions, automated activity, and outcomes arising

from or related to any Indicator. The Company does not design, review, verify, validate, monitor, or guarantee any Indicator, user-provided code, specifications, calculations, outputs, or strategies.

6.3. The Client agrees that use of Indicators involves substantial and inherent risks, including but not limited to market volatility, liquidity risk, slippage, execution delays or failures, platform outages, infrastructure failures, latency, connectivity interruptions, delayed or inaccurate market data or data feeds, erroneous calculations, misleading outputs, unexpected Indicator behavior, and external events such as geopolitical developments, economic announcements, high-impact news events, or data releases. Past performance, hypothetical results, back-tested performance, simulations, or Indicator outputs are not indicative of future results or performance.

6.4. The Client acknowledges that there is no warranty or guarantee that any conversion, implementation, or operation of user-provided code into a Custom Indicator will be error-free, secure, uninterrupted, bug-free, compatible with all systems or platforms, or capable of achieving any particular trading result or outcome. To the fullest extent permitted by applicable law, all Indicators and related functionality are provided on an “as is” and “as available” basis, and the Company disclaims all warranties, express or implied, including warranties of accuracy, completeness, reliability, merchantability, fitness for a particular purpose, non-infringement, uninterrupted availability, or compatibility.

6.6. Unless expressly authorised in writing by the Company, Indicators and related platform data are intended solely for personal visualisation and use within the platform and may not be used for: (i) automated or algorithmic trading, including trading bots; (ii) integration with external systems, software, or APIs; (iii) machine-driven or automated decision-making; or (iv) extracting, copying, redistributing, sublicensing, commercialising, or reselling platform data or Indicator outputs. The Client further agrees not to use Indicators in violation of applicable laws or regulations, to manipulate markets or platform functionality, or to make misleading or unsubstantiated performance claims.

6.7. The Client retains any intellectual property rights the Client may hold in submitted code and Indicators. By creating, uploading, publishing, or sharing any Indicator, code, or related materials, the Client grants the Company a worldwide, non-exclusive, royalty-free, irrevocable, perpetual licence to host, process, reproduce, display, distribute, and make available such materials in connection with operation, maintenance, security, improvement, and provision of the platform.

6.8. The Client represents and warrants that any code, materials, specifications, data, or other content submitted to the Company do not infringe, misappropriate, or otherwise violate any intellectual property, proprietary, confidentiality, or other rights of any third party. The Client agrees to

indemnify, defend, and hold harmless the Company, its affiliates, officers, employees, contractors, and agents from and against any and all claims, liabilities, damages, losses, costs, and expenses, including reasonable legal fees, arising out of or relating to any allegation that Client-supplied materials infringe or violate any third-party rights.

6.9. The Company reserves the right, at its sole discretion and at any time, to refuse, suspend, restrict, modify, remove, disable, discontinue, or terminate any Indicator, conversion process, functionality, or access to the platform for any lawful reason, including security, technical, regulatory, compliance, abuse, or intellectual property concerns, or where necessary to protect system integrity or other users. The Company shall not be liable for any loss or damage arising from such actions.

Part E: CFD Trading Terms

1. CFD Order Execution

1.1 Orders can be placed, executed and (if allowed) changed or removed within the trading hours for each CFD appearing on the Company's Website, as amended by the Company from time to time and if they are not executed they shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

1.2 The Company shall not be obliged to arrange for the execution of the Client's Orders in respect of any CFD out of normal trading hours which appear on the Company's Website.

1.3 Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Client Account Equity reaches zero and/or for any other justifiable reason.

1.4 Orders cannot be changed or removed if a trade confirmation is sent or they are executed or being executed or the market is closed. The Client has no right to change or remove Sell Limit and Take Profit if the price has reached the level of the Order Execution.

1.5 The Client may change the expiration date of Pending Orders.

2. Quotes

2.1 The Company provides Quotes by taking into account the Underlying Asset price, but this does not mean that these Quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

2.2 It is hereby acknowledged and understood that any Quotes displayed on the Trading Platform and/or Client's Terminal are considered indicative at the time of display and may not be up-to-date with the real-time pricing, owing to various factors beyond the Company's control, including but not limited to, technical conditions such as the transfer rate of data networks, the quality of internet connection which affects the time it takes for the price to reach Trading Platform and/or Client's Terminal after it leaves Company's servers, and rapid market fluctuations. Despite Company's efforts to promptly update all Quotes in the Trading Platform and/or Client's Terminal for real-time accuracy, these factors, and any other factor beyond the Company's control, may lead to the

Trading Platform and/or Client's Terminal showing a stale Quote, and due to this, slippage may also be observed.

2.3 In the event that the Company is unable to proceed with the execution of an Order, with regard to its price or size or for any other reason, the Company may send a re-quote to the Client with the price it is willing to deal.

2.4 The Company will delete Error Quotes (Spikes) from the Trading Server's Quotes Base.

2.5 The Company has the right not to provide Quotes and not execute Orders in case when the price of Underlying Asset becomes negative.

2.6 It is acknowledged that whilst the Quotes displayed on Trading Platform and/or Client's Terminal take into account a variety of factors including market data from various third party external reference sources, they are not taken directly and/or exclusively from one source, and therefore such Quotes may not match Quotes that Client sees elsewhere (including the Quotes of other third trading entities). It is also acknowledged that all prices shown on the Trading Platform and/or Client Terminal are indicative and are subject to constant changes.

2.7 The Client acknowledges and agrees that it is the Client's sole responsibility to actively monitor the Pricing Data, market information, and account positions through the Trading Platforms and Client Terminal. While the Company may provide various trading tools, systems, alerts, and third-party resources to assist the Client in trading activities, the Client should not solely rely on such tools or resources. The Client acknowledges that these tools are provided on an "as is" basis, and the availability and accuracy of such tools cannot be guaranteed. The Company shall not be held liable for any losses, damages, or claims arising from the Client's reliance on any tools or resources provided by the Company and/or any third party. The Client further agrees that the Company shall not be responsible for the failure, malfunction, or unavailability of such tools or resources, and it is the Client's responsibility to remain informed of market conditions and to manage their trading activities accordingly.

2.8 In the event of pricing uncertainty in the market, including but not limited to the absence of pricing from third-party providers, unusually wide spreads, zero or inverted spreads (bid prices exceed ask prices), negative prices, price interruptions (gaps), poor quality feed(s), or discrepancies in price levels across liquidity pools that exceed predefined internal thresholds, the Company reserves the right to widen spreads, limit certain types of execution, or suspend or interrupt pricing to protect clients from having their trades executed at untrusted prices. This may result in pricing gaps or the alteration of standard market opening and closing times. The Company commits to employing all reasonable measures, including but not limited to sourcing from multiple third-party providers and utilizing automated systems, to ascertain an accurate market price at any given moment. However, instances may occur due to external market factors beyond the Company's control. The Company shall not be liable for any losses or damages arising from these market conditions or the measures taken in response, except in cases of negligence or willful misconduct by the Company.

3.3 The Company has the right:

- A. To set the leverage on the Client's trading account at no more than 1:200, 3 (three) hours before market closing before weekends and holidays, if the trading account's current leverage exceeds 1:200.
